

HOW TO PLAY

MONEY WHEEL

The money wheel is fun, exciting and best of all easy to play. A good introduction game if you're new to the casino environment, yet still thrilling enough to entice the more experienced player.

HOW TO PLAY

The Money Wheel is divided into 52 sections, with each being represented by a symbol or number. The object of the game is to select one or more sections and place your bets on the corresponding area on the layout. You will notice each symbol pays out different odd's, this is due to the amount of times each appears on the wheel.

The Dealer will call "no more bets" and spin the wheel. If the indicator comes to rest on the symbol you have chosen, you win. You may select as many symbols as you like.

To get started, place any cash on the table and the Dealer will exchange it for gaming chips.
