

HOW TO PLAY CASINO WAR

Casino War is one of the easiest table games you will ever play and is a great for a first time player.

HOW TO PLAY

Place a wager in the betting area. One card is then dealt to each player on the table and one to the dealer. If your card is a higher rank than the dealer, you win! Winning bets are paid 1 to 1. If your card is the same rank as the dealer, you get the chance to 'Go to War' and try to beat the dealer with a second card or to surrender.

SURRENDER

If you surrender you lose only half your bet, the other half is returned and your hand is over.

GO TO WAR

If you choose to "Go to War" place a second wager, known as a "War wager" next to your first. The "War wager" must be for the same amount as the original wager. The Dealer will then burn three cards and give the Player and Dealer another card each. If your second card is a higher rank than the dealer's second card, you win! Your "War wager" will be paid 1 to 1 and your original wager will be a stand-off. If your second card is the same rank as the dealer's second card, you win! Your "War wager" will be paid 2 to 1 and your original wager will be a stand-off. If your second card is a lower rank than the dealer's second card, you unfortunately lose both wagers.

TIE WAGERS

There is also a Tie bet available. There can be only one tie bet per box, with the person controlling the box having first option.

Place a tie wager in the Tie bet circle. If, after the initial deal, your card has the same rank as the dealer, you win! Tie bets are paid 10 to 1.

It is important to note that cards are determined by their rank not their value and that all suits have the same value. The rank of cards from lowest to highest is 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen, King, Ace.
