

# HOW TO PLAY BUSTER BLACKJACK

**Buster Blackjack is an optional side bet available on our \$5 and \$10 Main Gaming Floor Blackjack tables that wins if the Dealer's hand busts (exceeds 21).**

If the Dealer busts then all Buster Blackjack bets are paid out dependant on how many cards are in the Dealer's bust hand. See the pay-out table below.

## HOW TO PLAY

If the Player places a standard Blackjack wager they have the option to also place a Buster Blackjack (BBJ) wager. They can only place a BBJ wager on a box they have a standard BJ bet in.

The Dealer will deal the hand as normal. If the Dealer busts all BBJ wagers will win based on the number of cards in the Dealer's busted hand. EG: Dealer has 8 cards in their bust hand, the Player will be paid the maximum pay-out.

If all of the Player's hands bust and there are BBJ wagers on the table, the Dealer will continue to deal their hand to determine if they would have bust.

If the Dealer does not bust then all BBJ wagers will lose.

## BET & PAY-OUT TABLE
